

COVERS[®]net

The Internet Filing System for Commercial Vehicles

COVERS[®]net is a product of R. L. Polk & Co.

COVERS[®]net

COVERSnet is the Internet filing system for commercial vehicles. With COVERSnet you can conveniently file International Registration Plan (IRP) registrations and International Fuel Tax Agreement (IFTA) fuel tax updates electronically and in real-time from any computer. *No special software is required.*

COVERSnet lets you...

- File IRP renewals and supplements
- File IFTA renewals and tax returns
- View the status of submitted transactions
- Receive messages from the jurisdiction
- Print and review invoice documents
- View and print account information
- Contact the jurisdiction with questions
- Access help to assist you as you work

Getting started with COVERSnet...

Here's all you need to save time and the hassle of waiting in line:

- **A computer with Internet access** (an Internet Service Provider and Internet Explorer version 5.0 or above)
- **The COVERSnet Web address** which will be provided by the jurisdiction
- **Authorization** from the jurisdiction to access COVERSnet. Directions on how to request authorization will be provided by the jurisdiction
- **An ink-jet or laser quality printer**

Accessing IRP and IFTA specific functions is simple with the easy-to-use COVERSnet menu items...

Once you have successfully logged into the system, select IRP or IFTA to begin. From there, you will be able to select the type of transaction you would like to perform from the "Choose an Option" menu.

You can always contact the jurisdiction directly while in COVERSnet. Just select *Contact Us* from the menu; help is just a click away.
